JOHN P. SANDERS, Editor and Proprietor.  
SATURDAY, OCTOBER 3, 1885.

The Flower of the New York Democracy has resigned. He does not care to play second fiddle to Gov. Hill.

Vice President Hendricks says: "I am not much of a politician." That is evidently what President Cleveland thinks, for we notice he declines to take his advice.

The famous "Queen of the Turf," of a few years ago, Goldsmith Maid, died at Trenton, N. J., a few days ago. She was thirty-eight years old and has been on the "retired list" for some years.

The Genesta having won three prizes is now going home. She did not get what she came for but she got everything else, and her owner would like to try just once more for the America Cup.

Dr. Mary Walker says she shall vote for Gov. Hill. That's right, Mary, your vote will be just as serviceable cast that way as in any other direction. Perhaps the governor may soon be looking for a second Mrs. Hill.

The trunk line managers have come together and forgiven one another for cutting one another's throats for the past six months, and added 20 per cent. to their freight rates. The public will be no better off by this move.

The President in effect says, that he is not particularly anxious for a Democratic victory in New York this fall. Cleveland is a wise man. He knows that with Hill triumphantly elected Governor of New York, he will have a formidable rival three years from now; hence, Mr. Hill, you will do well not to prepare your inaugural address at present.

The New York World says: "When Mr. Cleveland feels around for the Mugwump party in New York State, he will find nothing but a little thin air diluted, as it were, with laughing gas. The Mugwump chiefs are marching now at the head of the Republican procession and they are all swinging drum major batons." The World is rather hard on its late allies.

Gov. Bourne's clambakes still hold out. Last summer one day he gave a most enjoyable one to residents of Newport county; a month or so later he took in Providence county, and last Monday the denizens of Kent and Washington counties were invited to the hospitable board of Rhode Island's ex-Governor. His Excellency does not propose to have anybody slighted. It is lucky for his pocket book that the state is no larger.

The Sunday Globe of Hartford having stated that Barnum purposely allowed Jumbo to be killed, the great showman has brought a \$50,000 libel suit against the paper to make them take back the statement. The Globe's story was dated at Bridgeport. It is stated that the elephant had been sick for a long time and that the killing had been done for advertising effect. Mr. Barnum denies the article in every respect, and brings the suit to make them retract the statement.

Senator Enstis of Louisiana has blood in both eyes. He promises to oppose the confirmation of President Cleveland's nominations "right and left" when the session opens. The President can very easily take care of this opposition. Reagan of Texas was very unhappy a while ago, and said some mild swear words about this being a Republican administration in disguise. Cleveland appointed a brother of said Reagan to an office, and thereafter the wild Texas is silent. There is no easier way to quiet an unhappy Democrat than to give him a little office.

In New York the mugwumps have returned to their first love and will support the Republican ticket this fall. They have evidently got tired being out in the cold. The Democracy did not take them into camp and feed them on the leaves and fish as cordially as they desired, hence the return. They are now cudgeling their brains to find a way to make it appear that a vote for Davenport is a vote to sustain the President. Cleveland, however, does not look at it in that light and he is reported to be very wrath at the desertion of his late allies.

Papers which represent the insurance companies are attempting to show that the people are not in favor of the insurance law which was lately passed by the New Hampshire legislature and which is now before the legislatures of several other states. Our advisers are of an entirely different nature. In New Hampshire, we are told that every man woman and child is in favor of the new law, and in the State of Georgia where the same law will probably be passed the sentiment of the people is so strongly in favor of it that the legislators will be compelled to act upon it at once, notwithstanding a powerful insurance lobby is doing all it can to prevent the passage of the bill. When we reflect that the bill simply compels the insurance companies to pay what they agree to and to hold them responsible for the doings of their agents, it would not seem so bad a bill after all. There is a manifest injustice in compelling a man to pay a premium, year after year, on a policy, when in case of total loss of the property, because some carpenter who wants a job says it can be rebuilt for a less sum, the company refuses to pay only a portion of the amount insured. We are opposed to over-insurance and if the companies hold their agents responsible for the risks taken and their compels the companies in case of loss to pay the amount agreed upon there will be less over-insurance than there is today.

## Dolage of an ex-Governor.

In the superior criminal court of Boston Monday, ex-Governor Franklin J. Moses of South Carolina pleaded guilty to a charge of swindling Fred. L. Ames and others and was sentenced to three years in the State prison. Moses went to the residence of ex-Mayor Samuel C. Cobb, January 24, 1884, and represented that he was W. R. Simon of Charleston, S. C. He claimed to have had his pocket picked while on his way from Montreal and all his money taken. He obtained \$40 from the ex-mayor. The same day he went to the residence of Alexander Williams and gave the same name and made the same representation, receiving \$20. April 29 he went to the residence of Fred. L. Ames and represented himself to be John S. Preston of Charleston, S. C., and made the same representation and received \$30. He then went to Chicago, where he tried the same game. He was arrested, but escaped through some flaw in the warrant and went to Detroit, where he practiced the same game, was arrested and served six months' time. When he got out he was arrested and brought to Boston. He finished serving a sentence in August at Cambridge for obtaining money from Colonel T. W. Higginson under false pretences.

## Palestine Commandery No. 18, Knights Templars.

Palestine Commandery No. 18, Knights Templars, of New York, Em. Sir J. W. Bowden, M. D., Commander, have engaged the Metropolitan Opera House in which to hold their eighth annual reception on the evening of Thursday, Jan. 14. The Committee of Arrangements, selected at their last convocation, consists of Em. Sir Eugene S. Benson, Chairman; Sir William H. Chipman, Vice Chairman; Sir James A. Rich, William Johnston, Jr., and Charles S. Chapman, Secretaries; Sir Charles E. Lansing, Sir Horace H. Brockway, and the Council officers, Em. Sir James W. Bowden, M. D., Sir Wayne Litzenberg and Chas. H. Gillespie as ex-officio members. It is the intention of the Commandery to have this reception surpass all their previous successes of like nature. An exemplification of Knights Templar tactics and a formal reception to the Grand Officers and other distinguished guests are to be prominent features.

President Cleveland in appointing a great man like Professor Agassiz to a small office, expected to gain for himself a reputation for impartiality. The appointment of such a man the Republican Senate would be only too glad to confirm, but Cleveland was probably well assured in his own mind before he made the appointment, that a man with an income sufficient to allow him to present at least half a million to Harvard College, would not be likely to accept a little office worth but \$3000 or \$4000 a year. Prof. Agassiz is a very busy man and is engaged upon work much more congenial to his taste than the superintending of the coast survey, therefore he declines President Cleveland's offer with thanks.

Gen. Miles, commander of the military department of the Missouri, in his report to the adjutant general of the army, says that before the late trouble New Mexico was a pandemonium, the haunt of outlaws, with the Indians crowded into bad camps, but the control of the military has stopped the issuing of 20,000 more rations than the Indians needed, saved \$100,000 a year to the government, and driven off the outlaws. The Territory is a block in the pathway of civilization, and perpetuates barbarism, costing hundreds of thousands of dollars to maintain between 60,000 and 80,000 Indians.

The special dislike of the Mugwump crowd just now are Senators Sherman of Ohio and Hear of Massachusetts. Because they believe in calling things by their right names and are not yet ready to worship the President as a saint, these little fellows who think the whole world theirs, are engaged in hurling epithets at them. Luckily their abuse is harmless.

The Massachusetts Republicans held their State convention in Springfield Wednesday and unanimously renominated Governor Robinson and the rest of the State ticket. Senator Hoar presided and made the speech of the day. General Hawley also made an excellent address. The Massachusetts Republicans have made a good start off in the fall campaign.

The Dauntless had better give up trying to whip the Englishman. She has sailed two races with the Genesta and got badly left each time. Monday they raced for the Cape May Challenge Cup. The Genesta made the distance—275 miles—in 42 hours 14 minutes 40 seconds beating the Dauntless by many hours.

A confident matrimonial agent of Dakota advertises to "accommodate 10,000 girls with husbands in Dakota on ninety days' notice." A great eastern emigration is desired, especially by Fargo, which has only four unmarried girls in a population of 12,000.

It is said that Superintendent Kimball of the Life Saving Service has gone to go and that Secretary Manning will appoint a headman of his, Capt. Waddell of Maryland, in his place. Heretofore the Life Saving Service has been free from politics.

There were several failures in New York stock circles yesterday. Among which were the large houses of William Heath & Co. Henry N. Smith, and Callahan & Co. The liabilities of Heath & Co. are among the millions.

James Barker on Anthony Stewart's farm in Middletown has a pear tree in full bloom, on which at the same time are growing nearly ripe pears. It is a sight worth seeing.

## Temperance Anniversary Celebration.

The members of Atlantic Division, No. 6, Sons of Temperance, celebrated the hundredth anniversary of Dr. Rush's inauguration of the initial temperance movements, the forty-fifth anniversary of the foundation of the order in New York, and the thirty-fourth anniversary of their chapter, on Friday evening at their cosy lodge room on Spring street. W. P. Arn Mithreth presided, and after Scripture reading by Chaplain W. H. Pitman and prayer by Rev. Mr. Hollingshead, addressed the assemblage, with words of welcome, together with a brief history of the temperance movement begun by the Washingtonians and carried into total abstinence by the Sons of Temperance. About this organization has risen in years past many associations that have aided in the work. He then introduced Mr. Stiness, of Providence, one of the quartette that founded the Newport Chapter, who spoke feelingly of the progress made within his recollection, in educating the public mind up to a proper sense of the degradation and ruin produced by drink. Rev. Mr. Rector spoke briefly and to the point, showing the growth and power of the liquor business in this country and in this State.

Rev. Mr. Rider urged the necessity of vigorous work and self sacrifice. President Butler, of the F. M. T. A., described the work of this local organization and illustrated the prosperity of the two-hundred members. Miss Gifford spoke briefly, and another member of the W. C. T. U. read a poem on the occasion and society work. Rev. Mr. Hollingshead spoke humorously on the thoroughness of his predecessors in covering the ground, and demanded another piano and violin duet from Messrs. J. B. Wood, Jr., to cover his confusion and terminate pleasantly a memorable event in the history of temperance reform in Newport.

## The Late Mrs. Bull.

Mrs. Henrietta E. Bull, the beloved wife of Henry Bull, Esq., died at her late residence in Middletown, on Monday last, after a long illness which she bore with Christian fortitude. She was the daughter of the late David Melville of this city, and was in the seventh year of her age. She will be greatly missed not only by her immediate friends but by many to whom she has administered kindness in their hours of necessity. The funeral took place on Wednesday last, the officiating clergyman being Rev. George J. Magill, Rector of Trinity church in this city, of which she had been a member from her earliest childhood. The quartette choir from the United Congregational church sang several appropriate selections in a most feeling manner.

## A Whacking Voyage.

The bark Alice Knowles, of New Bedford, was at Narragansett, Sept. 14th, with 640 blbs. sperm, and 800 blbs. whale oil, 1500 blbs. in all, and only eleven months out from home. Who can beat this in these days? She will ship her catchings home, and complete her voyage.

The fact that the Providence Journal through its energetic Newport correspondent, and other out of town dailies, were the first to announce Mr. Morton's generous offer, evidently sat temptingly on the mind of our ostentatious home daily, which promptly ridiculed the whole thing as being without foundation, etc. The Newport correspondent, too, of the Boston Record, who evidently felt sore over the matter, used the following unmanly language: "There has as yet been no authentic confirmation of the report sent abroad from Saturday night by the Associated Press, agent that the Lizard had been donated to the city by the Hon. Levi P. Morton, and many are looking to look upon the story as the creation of the brain of a man who is regarded by some as in his dotage."

Our article in another column will show that the "rumor" was a fact.

Ex-Gov. Van Zandt and Mrs. Van Zandt have returned from their summer's sojourn at Richfield Springs. They are both in good health and report having passed a delightful summer. The Governor speaks very encouragingly of the state of affairs in New York and says that there is hardly a shadow of doubt but that the Republicans will carry the State this fall.

Steamer Jersey City, Capt. Horlor, brother-in-law of Col. F. G. Harris, of this city, arrived in New York Thursday. Mr. Horlor is of this city, who recently graduated from Brown University, will probably sail for Europe on the return trip with Capt. Horlor, to be absent several months. We wish him a pleasant voyage.

Mr. William H. King, burnisher at the Gas Co.'s repair shops, met with a painful accident Thursday. He was in the act of starting the gas engine when his foot caught between the frame and the eccentric bar, badly smashing two of his toes. His wounds were dressed by Drs. Rankin and Barker.

The annual Harvest Concert of the Sunday School of the Union Congregational church will be held tomorrow evening at 7.30. Subject "Crowning the Hopes of the Spring." An especial musical programme will be rendered. Hours of service at this church in the future will be 3 and 7.30 p. m.

The Aquidneck House, L. F. Atteilton proprietor, closes another of its many successful seasons on Monday next.

## A Railroad Man's Views.

Mr. Joseph Hickson, the agent in Toronto, Canada, of the New York West Shore and Buffalo Railway Company, is well known throughout the Dominion. He writes that for several weeks his little girl was ill with colic, and he used different preparations and also had her treated by a physician, but without effect. Finally, he tried Dr. Carter's Little Liver Pills, and before one bottle was finished she was perfectly well.

## Fred Gower's Estate.

The New York Times says: Lillian Norton Gower, known professionally as Lillian Nordica, the prima donna, has gone to Paris to claim the estate of her husband, Frederick A. Gower, who is supposed to have been lost from a balloon, as nothing has been heard of him or the balloon since the ascension was made from Cherbourg in July. His estate is valued at \$3,000,000. He made his fortune largely in the telephone, which he went to Paris some years ago to introduce into Europe upon after the successful experiments of Prof. Bell in this country. He was formerly a journalist in Providence, R. I., and as an associate of Prof. Bell lectured on the telephone before he went abroad. Mrs. Norton-Gower some time ago petitioned the Court for a separate maintenance from her husband, praying that she be freed from his control on the ground of ill-treatment. She said she was a native of Maine and married Mr. Gower in Paris fifteen or sixteen months ago. Mr. Gower asked for a postponement in presenting his evidence to enable him to return to Paris. He made the ascension to continue experiments to test the use of balloons for war purposes.

The wife of W. H. H. Murray has sued for divorce on the ground of desertion. She is practicing medicine at New Haven. Mr. Murray, it is said, will not oppose the suit.

Mrs. Veronica Dallas of Syracuse, N. Y., has fasted fifty-four days. She commenced to fast Aug. 10, and since that time nothing but water has passed her lips.

## Col. George H. Browne.

Col. George H. Browne, who died in Providence Saturday, was one of Rhode Island's best known men. He was born in Gloucester in 1818, graduated at Brown University in 1840, and was admitted to the bar of the State in 1848 and began practice in Chepachet. He early became interested in politics, being an ardent Democrat, and gained the entire confidence of the leading men of his party. The several years he represented the town of Gloucester in the General Assembly in 1842, 1846, 1850, 1851 and 1852, where he took prominent position as a leader of his party.

In the revolution of Rhode Island politics in 1850, which resulted in the election of Gov. Sprague, Col. Browne was chosen from the western district of Rhode Island to represent the State in the thirty-seventh Congress. In 1850 also, he was a delegate to the Democratic Convention at Charleston, S. C., nominating candidates for Presidential election of that year. When that Convention split, he went with the Douglas party to Baltimore and there took part in the proceedings resulting in the nomination of Stephen A. Douglas. When the war broke out Col. Browne showed himself a most determined Unionist in support of the Union arms. In 1862, when President Lincoln issued his proclamation for volunteers to serve nine months, Col. Browne left his seat in Congress and took command of the Twelfth Rhode Island Volunteers. This regiment did a great deal of hard service; it served in Virginia, Tennessee, Kentucky, then joined the Army of the Potomac in the winter of 1863 and was engaged in the battle of Fredericksburg. The regiment returned and was mustered out in 1863, and Col. Browne then resumed his seat in Congress, and served the remainder of his term. The Hon. Wm. P. Sheffield of Newport was the member from the Eastern district at the same time.

Falling of reelection, he returned to the practice of his profession, his associate being Col. Nicholas Van Slyck, the firm continuing until the death of Col. Browne. In 1864 and again in 1865, Col. Browne was candidate for the office of Governor, being defeated each time by James Y. Smith. In 1872 and 1873 he was elected State Senator from Gloucester; and in 1874, by a Legislature of his political opponents, he was chosen to the Chief Justiceship of the Supreme Court of Rhode Island to fill the vacancy caused by the resignation of Chief Justice Livingston. This office, however, Col. Browne declined, preferring to continue in the practice of law.

## CARTER'S LITTLE LIVER PILLS.

## CURE SICK HEADACHE

Headache, eye pain, Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cure Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Browses, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

Acid they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all, the best way to get the most out of them is to get them at once.

Is the base of so many lives that there is where we make our great boast. Our pills cure it while others do not.

Carter's Little Liver Pills are very small and very easy to take. One or two pills are small and they are strictly vegetable and do not grip or purge, but by their gentle action please all who use them. In vials at 25 cents; five for \$1. Sold by druggists everywhere, or sent by mail.

# KITCHEN ECONOMY.

## Government Tests showing which is the Best Baking Powder.

Dr. Edward G. Love, formerly Analytical Chemist for the Government, has made some interesting experiments as to the comparative strength of baking powders. Dr. Love's tests were made to determine what brands are the most economical to use, and as their capacity lies in their leavening power, tests were directed solely to ascertain the available gas of each powder. Dr. Love's report gives the following:

Name of the Baking Powder:	Strength: Cubic Inches Gas per each ounce of Powder.
"Royal" (absolutely pure)	127.4
"Palapso" (alum powder)	125.3
"Rumfords" (phosphate) fresh	122.5
"Rumfords" (phosphate) old	32.7
"Hanford's None Such," fresh	121.6
"Hanford's None Such," old	84.35
"Redhead's"	117.0
"Charm" (alum powder)	116.9
"Amazon" (alum powder)	116.9
"Cleveland's" (contains lime) when fresh	110.8
"Sea Foam"	107.9
"Czar"	106.8
"Dr. Price's"	102.6
"Snow Flake" (Gross's, St. Paul)	101.88
"Lewis's" Condensed	98.2
"Congress" yeast	97.5
"Pearl"	93.2
"C. E. Andrews & Co's" (contains alum)	78.17
"Hecker's"	92.5
"Gillet's"	84.2
"Bulk"	80.5

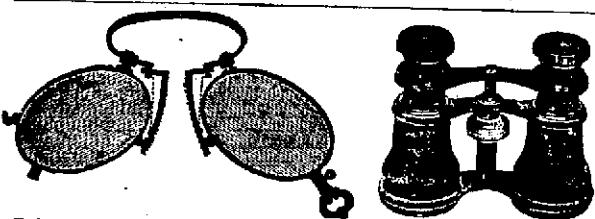

In his report the Government Chemist says: "I regard all alum powders as very unwholesome. Phosphate and Tartaric Acid powders liberate their gas too freely in process of baking, or under varying climatic changes suffer deterioration."

"The Royal is a cream of tartar powder of a high degree of merit, and does not contain either alum or phosphates or any injurious substances."

Dr. H. A. Mott, the former Government Chemist, reported to the Government in favor of the "Royal" brand. He says: "It is a scientific fact, that Royal Baking Powder is absolutely pure."

Prof. McMurtre, late Chief Chemist, Department of Agriculture, U. S. Government, says: "The chemical tests to which I have submitted the Royal Baking Powder, prove it perfectly healthful, and free from every deleterious substance."

Wm. McMurtre, E.M., Ph.D.

THE PROPRIETORS OF THE

New York Optical Institute

beg to thank the general public and their patrons for their kind appreciation and patronage extended to us this season. We cannot too forcibly impress upon you the importance of having your eyes, if defective, properly fitted with glasses. It is the most delicate organ of the body, and yet the most abused. We would advise all those whose vision is imperfect to embrace the opportunity before us and have their eyes accurately adjusted to the most difficult cases, in which our many patrons can testify. We give you an opportunity of buying useful optical goods VERY CHEAP before we leave, by making the following LARGE REDUCTIONS.

- Opera Glasses, good Morocco body, reduced from \$3.75 to \$2.50.

### MIDDLETOWN.

CHURCH NOTES.—On Sunday the 27th, the M. E. church at Four Corners opened its doors to its members and friends for the first Sunday service for many weeks. The church having been renovated in every particular and now in proper order has been opened for good. On Sunday morning over one hundred Sabbath school scholars were present at the school and were addressed by the Rev. Chas. Merrill with some very interesting remarks and the session will long be remembered with interest. The afternoon services were largely attended, many from the town of Portsmouth and from Newport were present. The sermon was preached by the Rev. Chas. Merrill of Boston and was an able discourse, after the service the pastor Rev. W. H. Wright made some remarks in regard to the manner of improvements, and, having called upon Mr. A. A. Brown to explain the manner in which they were constructed, costs, etc., the pastor informed his hearers that the church was now in complete order and the bills amounting to some seven hundred dollars must be paid and he knew the members and friends present would like to start out with a church free of debt. Tellers were appointed to call on the pews and in about twenty minutes the full amount was raised and the pastor and people as well as friends were congratulated by each other and were dismissed with many a good word for the future welfare. Messrs. H. T. Easton, Augustus French and Herbert Tilley of Newport were present in the choir and assisted in the singing. The evening service was largely attended and the House was full to overflowing and many unable to be seated. The doings of the day had so inspired the members that a renewed spirit was manifested and one of the best prayer and conference meetings was held. Tomorrow the Rev. W. A. Wright will preach on Temperance and in the evening a concert by the Sunday school.

Mr. Darius Buffum who formerly resided on Buffum's Hill has taken rooms for a few weeks at Miss Anthony's on Main road.

Mrs. J. K. Barney will address the Sunday School of the M. E. Church, Middletown to-morrow (Sunday) morning, and will preach in the evening.

### PORTSMOUTH.

Our genial friend, Lorenzo D. Tallman, who has lately been appointed postmaster at the Newtown office in Portsmouth, proposes to move the office to the old location where it was when John Tallman was postmaster, some three-eighths of a mile north of where it is now.

#### RHODE ISLAND.

The Narragansett Weekly says: a peculiar accident happened to a horse which Herbert Robinson was driving at Wakefield, one day last week. While crossing the railroad track, the horse caught one hind foot between the rail and the planks laid for a drive way, and broke its leg. The animal had to be killed.

A great deal of work is to be done at Narragansett Pier before the beginning of another season. A half-dozen or more cottages have already been constructed for, and the casino is to be completed forthwith.

Mrs. Eliza Robinson, wife of Sylvester Robinson, died at Wakefield last week, in her eighty-fifth year. She was a native of Westerly, and her maiden name was Eliza Noyes.

Mr. C. H. Thucber, agent for the Society for the Protection of Children, in Providence Wednesday afternoon rescued three little children named William, Howard and George Washington, who were huddled together in a filthy room on Helen street and dying with hunger. Their mother was nearly dead, having suffered long from consumption. The husband and father, Michael Washington, has spent all his money in rum. The children were properly provided for, and a bountiful supply of food and money given the woman. The inhuman husband and father will be attended to by the police authorities.

#### MASSACHUSETTS.

Manufacturing is on the increase at Lawrence. The Everett mills, which have been stopping occasionally for the last year or more, are now behind on their orders and have received orders to run at their full capacity.

Wellesley college has opened with 510 students, 128 of whom are in the freshman class.

William H. Saunders went to Salem from Boston about a week ago, and married a daughter of John S. Washington. He then stole the wedding presents and pawned the bedding. In the district court Friday he was fined \$15 for obtaining the goods under false pretences.

Cornelius M. Bliss, whose chances for nomination to the governorship of New York looked rosy, until blanketed by the election of Davenport, is a Fall River boy.

The Boston Post has sized up the Ohio situation in this terse language: "The Democrats are carrying Ohio now. The Republicans will carry it October 12."

A child was lately born in Massachusetts with 11 grandparents, including his grandparents, great-grandparents and his great-great-grandmother. What a foot these old people will make of the young one.

Directors of one mill held this week, and circulars have been sent to each mill asking for a general meeting of manufacturers to consider the project. The plan is favorably received by a large number of mill men, but it is the general opinion that it cannot be made successful unless the co-operation of manufacturers outside of Fall River is secured.

A man named Grauman and his son were blasting in a well at Fall River on Friday afternoon, and as a charge did not ignite, they proceeded to draw it, after wetting it. While at work a portion of the powder exploded and both were badly injured, the son having his arms broken, and both having their faces filled with powder and their eyes injured. Both may lose their sight.

### CONNECTICUT.

A Waterbury physician has invented an ingenious attachment for a clock, to be placed in the loft of a stable and set at any desirable hour. As the clock reaches the hour, say 6 A. M., the attachment releases a bell which empties a drawer (in which feed has been previously prepared) into the feed stall, and the horse is fed at regular hours, thus saving an early morning trip to the stable.

Middletown's electric light and gas companies are trying to outbid each other and the gas company's latest offer is to furnish 150 lights for \$1200 less than heretofore. The president of the electric light company is the mayor of the city and the president of the gas company is judge of the city court. Both are law partners.

### NEW HAMPSHIRE.

New Hampshire cities and towns are rapidly organizing insurance companies to replace those recently withdrawn on account of the passage of the "valued policy" bill. The Granite State fire insurance company of Dover has been organized with a capital of \$200,000, which, it is said, will be increased to \$1,000,000.

Citizens of Lebanon, Hanover, Plainfield, Enfield and Canaan are to organize a stock insurance company, with headquarters in the former place.

The Rev. James H. Pettie of Manchester, N. H., who has been a missionary in Japan for several years, has sailed for home on account of the impaired health of his wife, who is with him.

The visitors on Mt. Washington have started a monument to Gen. Grant in the rear of the Tip-Top house, each person contributing a rock.

It is related that a gentleman who lives near Arouis, Ct., having business recently in Litchfield, stopped on the way to see his mother, an old lady 90 years of age. At first he did not intend to stop to dinner, but the old lady pressed him so hard, saying that she would not detain him but a few minutes, that he consented to remain. The old lady went to the cellar after vegetables, to the garden after corn, set the table, made tea, cooked two kinds of meat, and in just 35 minutes from the commencement the dinner was on the table. She subsequently ran a race around the house with a six-year old grand-daughter and beat her.

The house of the late Gov. Hubbard of Hartford was robbed of much jewelry and about \$50 in money Saturday while the family were eating supper.

The late Maria J. Johnson, an aged Norwichee woman, leaves \$10,000 for building a spire on Christ church, which has waited forty years for just that addition.

### MAINE.

Joshua Lambert of Durham is about eighty years of age. For several weeks he has been breaking and loading green corn by day, and at midnight is accustomed to start out for a fifteen mile drive with a load of corn to Brunswick, arriving in that town about daylight. He has made five trips per week for two weeks.

It is a somewhat singular fact that the G. A. R. in Maine has grown more rapidly the past summer than in any previous stage of its history. This growth is due to the great impetus given it by the success of the national encampment at Portland.

The business men of Auburn, Me., have, many of them, signed an agreement to have their telephones removed when the proposed increase in rates takes effect.

The Rev. D. F. Tefft of Bangor, Me., has recently published a valuable work entitled "Evolution and Christianity." In its preparation the doctor has access to the libraries not only of this country but also of Great Britain, France, Germany and Sweden. He has been at work upon the subject for twenty years.

The Lewiston Journal says that the aggregate receipts of the Maine State Fair for 1885 were \$18,443.10. Last year, the total receipts were \$17,069.07. The premiums and running expenses this year amount to about \$14,000. Thus a good balance is left to apply to paying for permanent improvements.

Chesley Sibley of Lowell, fifteen years old, was poisoned with the weed known as mercury, last week. Friday he went in swimming at Bryant Ridge, and Saturday noon died from the effects of the poison striking in and producing congestion of the brain, says the Dexter Gazette.

Women with pale colorless faces who feel weak and discouraged, will receive both mental and bodily vigor by using Carter's Iron Pills, which are made for the blood, nerves and complexion.

Something that will quiet the nerves, give strength to the body, induce refreshing sleep, improve the quality of the blood, and purify and brighten the complexion, is what many persons would be very glad to obtain. Carter's Iron Pills are made for exactly this class of troubles, and are remarkably successful in accomplishing the ends desired, as named above. They are useful for both men and women. Sold by druggists. Price, 50 cents a box. See advertisement.
